Step3: Rotate the latch bolt at 180° inside mortise, then loose it.

2. How to change the handle direction?

Front Lock

Back Lock

3. How to use emergency power?

4. How to use mechanical key?

Unlocking method: Please remove the silicon stopper of the keyhole first, then insert the key into the keyhole and rotate 90° to left or right, press the handle to unlock.

Caution: Please do not press down the handle before rotating the key.

Notes: Key A and Key B are designed for the property safety of the house owner:

- 1.Key A is used for lock installer and upfitter. After the installation completed, the owner check and take back Key A, insert Key B into the keyhole and rotate 90°, then Key A will be unable to open the lock.
- 2.Key B is packed in the sealed plastic wrap for safety, which is used only for house owner.

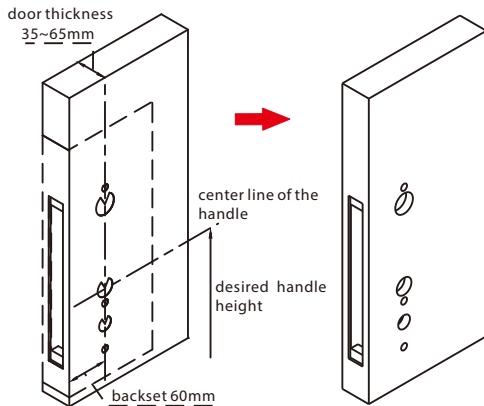

Installation

Recommended installation height

If the user height is 1.35-1.80m, the height from handle centerline to ground is 1m.

1. Drill holes on the door

Note1: Align the template along the vertical center line of the mortise(E) at the desired handle height, and tape it to door.

Note2: Mark the holes first, then start drilling.

2. Install the mortise(E)

Note: The mortise with hooks is optional.

3. Install outdoor unit(B) with gasket(C),and spindle(D)

Note: 1. The small triangle must be placed toward the letter of R or L.

2. If the door is right open, the small triangle should towards R.

3. If the door is left open, the small triangle should towards L.

How to change the location of stud bolts?

Note: Before install the waterproof gasket, if the height of stud bolts is unsuitable for the existed holes, you can adjust stud bolts location to make the lock suitable.

Step1: Twist down the eight M3 screws and M5 stud bolt to take down the mounting plate.

Step2: Twist down the other stud bolt.
Note: There are four square holes to be used.

4. Install mounting plate (I) with gasket(C), spring(K) and spindle(L)

5. Install indoor unit (M)

6. Install battery (N)

Install batteries and connect the battery joint.

Note: The battery is installed at default and equipped with 1 piece lithium battery. When you purchase a rechargeable battery, please install according to the following pictures. Remove the battery for charging is not recommended.

Lift the silicon cover in the below red box to recharge.

7. Mark and drill holes for strike
