Cloud-Based Centralized Time Management Solution

BioTimeCloud is a powerful cloud-based time and attendance management solution that provides a stable connection to ZKTeco's standalone push communication devices by Ethernet/ WIFI/ 3G/ 4G through cloud offering employee self-service by web browser or mobile application.

Synchronize data from time and attendance devices in different locations.

Centrally manage roster, shifts, and timetables efficiently.

Monitor the data from inter-regional terminals in real-time.

Mobile Attendance Solution

BioTimeCloud attendance application is designed to provide employees a time attendance solution where employees can record their attendance anywhere within the boundaries of the company or designated areas. The solution gives a mobile connection to BioTimeCloud which allows users to use their smart devices (iOS/ Android) to punch-in/out whenever and wherever they need.

Main Features of BioTimeCloud

- Punch in & Punch Out
- Field Duties Tracking
- Leave request
- Geofencing Mobile Punches
- Snapshots Reporting

Mobile Punch In and Punch Out for Time Attendance Records

User just simply turn on the application on smart devices (iOS/ Android). Click the punch-in button and the clock-in/ out and attendance will be recorded.

Leave Request & Employee Self-Service

Using the mobile application, users can apply for leave or field duties in any mobile device, which provides quick and easy approvals without complicated and time-consuming procedures. Users can also view their leave balance via app.

GPS Tracking - Report to Administrator

With the mobile app, employee location can be obtained through location reporting when they punch in/out from the app.
